Nomenclatural novelties : R. Lücking, R. Miranda & A. Aptroot

*Pseudobogoriella miculiformis* (Müll. Arg.) Lücking, R. Miranda & Aptroot, comb. nov.

IF555803

Basionym: *Microthelia miculiformis* Müll. Arg., Bot. Jb. 6: 417 (1885).

This formal combination was accidentally omitted from the recent revision of Trypetheliaceae where the genus *Pseudobogoriella* Lücking, R. Miranda & Aptroot 2020 was introduced (Lücking et al. in Hongsanan et al., Fungal Divers. 105: 187, 2020). When validly describing the species, Müller (Bot. Jahrb. 6: 417, 1885) cited the invalid name *Verrucaria miculiformis* Nyl. in synonymy and therefore the name has frequently been cited as 'Nyl. ex Müll. Arg.'. However, Müller explicitly ascribed the name to himself and there is no indication that the validating description was ascribed to Nylander (ICN Art. 46.3, Ex. 17).
