

Nomenclatural novelties : Alexander B. Doweld

Zoopagomycetes Doweld, class.nov.

IF550358

Thallus simple, branched or none, or hyphal system extensively branched. Ectoparasites forming haustoria inside the host. Arthrospores, chlamydospores or uni- or multispored sporangiola (asexual reproduction); sporangiospores produced in simple or branched merosporangia. Zygosporangia globose, produced on differentiated, straight or coiled suspensors. Endo- or ectoparasites, predaceous.

Holotype Zoopage Drechsler.
